WEATHER SYNOPSIS BY REGION

NORTHERN CALIFORNIA

*** Drier with Gusty SW-NW Wind Higher Terrain and Cascade-Sierra Crest-East Today, Increasing Chances of Activating Holdover Fires ***

*** Isolated Late Day Thunderstorms Near the Oregon State Line Today, More Numerous and Farther South Monday ***

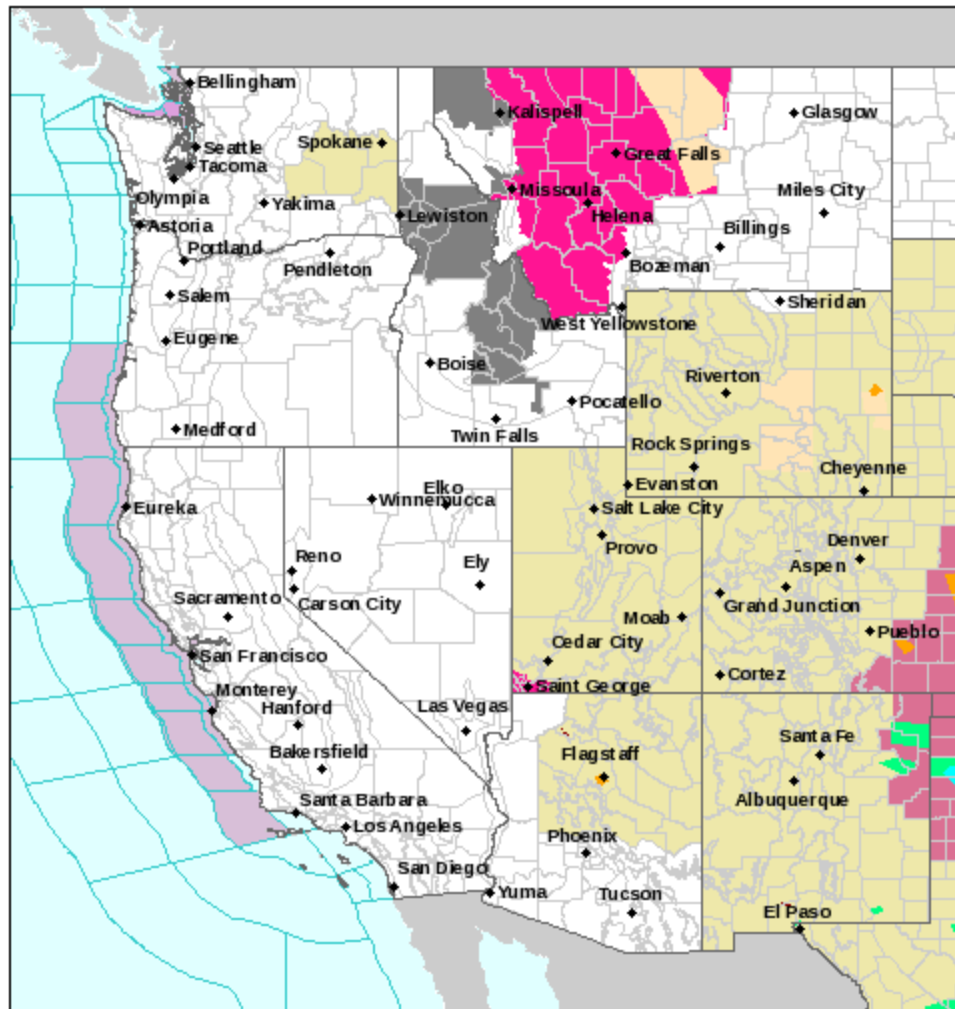

SW-NW winds will gust to 27-32 mph over the higher terrain and all areas east of the Cascade-Sierra crest this afternoon as a mostly dry cold front moves into our far northern areas. The increase in sunshine and wind and the expected lower RH will allow holdover fires from recent lightning to emerge and begin to spread. There is a slight chance of showers and thunderstorms near the Oregon state line this afternoon and evening. The most likely area for lightning will be from Lassen Volcanic Nat'l Park and Lava Beds Nat'l Monument east to northern Washoe County, and from Quincy north. If they develop, coverage will be sparse and there will be rainfall, but dry strikes and new ignitions are always possible. High pressure will move in on late Monday and early Tuesday and produce light NW-NE winds with low RH, followed by another weak dry front late Tuesday. The high will build back over the region Wed-Fri and produce a warming trend with light winds. The increase in stability will lead to poor air quality in canyons and drainages near active fires.

SOUTHERN CALIFORNIA

A Pacific trough dropping down the West Coast will bring a few degrees of cooling today and then greater cooling Monday. Temperatures will be below normal Monday through Wednesday. Maximum temperatures today will be in the upper 70s and 80s across the mountains and upper 80s and 90s in the valleys. Minimum humidity will be mainly between 12% and 25% above and inland from the marine layer through the middle of this week. The marine layer is around 2,000 feet deep this morning and will deepen to between 3,000 and 4,000 feet Monday through Wednesday. Morning low clouds and fog will make it up to the lower coastal mountain slopes Monday through Wednesday. Westerly winds of 15 to 25 with gusts to 40 mph will surface across the wind prone mountain and desert areas this afternoon and then increase to 20 to 30 mph with gusts to 50 mph tonight through Tuesday evening. Winds will become lighter by Wednesday. High pressure will build into the West Coast from the Pacific Ocean causing temperatures to warm to near or a little above normal late this week. A weak area of low pressure inside the ridge of high pressure will form off the Southern California Coast which will bring isolated afternoon showers and thunderstorms to the Sierra late this week.

Cal OES LAW ENFORCEMENT MISSIONS

New/Ongoing/Closed Cal OES Law Missions

- **2017-LAW-38059, 08/12/17, 1239 hours,** AFRCC advising of an EPIRB activation at 34° 17.07'N -117° 19.54'W plotting near Silverwood Lake and Forest Service Road 2N33. At 1248 hours, LDO left voice mail on the registered owner's(R/O) cell phone. At 1251 hours, LDO contacted San Bernardino County Sheriff's Department (SBSD) and while giving them the activation information was contacted by the R/O, who advised he had accidentally activated his EPIRB. The R/O said there was no distress and gave his location, which was on Silverwood Lake in his boat west of the initial coordinates. SBSD and AFRCC was updated. **Mission Closed.**
- **2017-LAW-37928, 08/08/17,** At approximately 1600 hours, Cal OES Law Duty Officer (LDO) made contact with the California Air National Guard on behalf of the Fresno County Sheriff's Office. The contact regarded a recovery mission which has been on-going for approximately one week. Two Individuals were involved in a fatal vehicle accident on HWY 180 approximately 500' into a river gorge on the Upper Kings River. The rugged terrain and high waters are hindering recovery efforts and therefore consultation from the National Guard was being sought for potential assistance. The National Guard and their subject matter experts will be meeting in Fresno and then performing a reconnaissance flight to the site for evaluation. **Update: 08/09/17, 2100 hours,** The National Guard reported that they were unable to satisfactorily evaluate the recovery mission with the Blackhawk Helicopter they arrived in and will re-engage on 08/10/17 with a Chinook Helicopter. **Update: 08/10/17, 1400 hours,** CNG's consultation continuing. **Update: 08/11/17, 1001 hours,** FCSO advising CNG evaluation completed and are now requesting SME evaluation from Kern and Tulare County Sheriff's Swift Water Rescue Teams. Cal OES Law Enforcement Branch (LEB) coordinating the response. **Update: 08/11/17, 1707 hours,** Both Kern and Tulare County Sheriff's accepted the mission and will meet with FCSO on 8/12/2017 at 1000 hours. **Update: 08/12/17, 1449 hours,** [FCSO advising Kern and Tulare County Sheriff's SME evaluation has been completed and will be suspending the mission due to safety issues until water flows have decreased.](#) **Mission Ongoing.**
